PROFESSIONAL SUMMARY

Senior Security Service & Surveillance Technician with strong hands-on experience supporting live surveillance and electronic security systems in high-availability environments. Experienced in enterprise CCTV systems, fault diagnosis, preventative maintenance and camera optimisation, with solid knowledge of IP-based video networks. Proven ability to respond to incidents, support operational teams and maintain system reliability in regulated and continuously operating sites. Background includes ownership of a private electronics business in Greece (2003–2015), providing a broad foundation across telecommunications, CCTV, network infrastructure and customer support.

PROFESSIONAL EXPERIENCE

Senior Security Service Technician

Urmet Australia (formerly Epsilon Security / SUPATECH) | Loganholme, QLD, Australia | May 2025 – Present

- Service, fault diagnosis and resolution of surveillance and electronic security systems across 10–30 commercial and residential sites, managing 50–100+ devices per site on average.
- Troubleshooting and maintenance of enterprise CCTV / surveillance, access control, intercom and IP network infrastructure.
- Preventative maintenance including camera inspections, equipment replacement, system adjustments and image optimisation.
- Diagnosing complex faults on live systems while maintaining continuous operation and system availability.
- Providing technical support to service, network and project teams.
- Preparing technical reports and documentation for management and compliance purposes.

Security Service Technician

Urmet Australia (Epsilon Security) | Mascot, NSW, Australia | May 2016 – May 2023

- Service and maintenance of CCTV / surveillance, access control, alarm and intercom systems.
- Troubleshooting IP cameras, VMS platforms and network-related issues.
- Programming and support of Urmet intercom and IP-based systems.

- Supporting operational teams and service activities across multiple large sites.
- Subcontractor on projects for Amazon, Fredon and Next Security.
- Installation, testing and commissioning of surveillance and terminal devices.

Owner / Electronic Systems Technician

Antenna Stores – Private Business | Heraklion, Crete, Greece | 2003 – 2015

- Inspection, evaluation and installation of telecommunications, antenna and alarm systems.
- Installation and maintenance of CCTV systems in residential, commercial and industrial environments.
- Design, implementation and maintenance of network infrastructure.
- End-to-end technical support and customer management.

NOTABLE PROJECTS

Sydney, NSW

Opal Tower — Sydney Olympic Park

Sydney, NSW | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for one of Sydney Olympic Park's landmark high-rise residential towers — a high-availability, high-occupancy site requiring continuous system uptime.

Granville Place — Granville, NSW

Granville, NSW | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for a major 618-apartment, three-tower residential and retail development — coordinating system reliability across multiple buildings on a single large-scale site.

Burwood Grand — Burwood, NSW

Burwood, NSW | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for a \$500M landmark mixed-use development of three residential towers, retail tenancies and council chambers — supporting over 1,000 residents on a continuously operating site.

Schofield Gardens — Schofields, NSW

Schofields, NSW | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for ALAND's award-winning masterplanned residential community — a multi-stage, multi-building development supporting thousands of residents across the precinct.

Wicks Place — Marrickville, NSW

Marrickville, NSW | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for a 270-apartment urban village across five boutique buildings, anchored by a retail precinct overlooking Wicks Park.

Macquarie Rise — Macquarie Park, NSW

Macquarie Park, NSW | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for a \$400M, 268-apartment mixed-use precinct across three residential towers with retail and commercial podium.

Highpoint — Hurstville, NSW

Hurstville, NSW | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for a \$270M, three-tower 448-apartment masterplanned community housing 800+ residents at Hurstville's highest point.

Marina Square — Wentworth Point, NSW

Wentworth Point, NSW | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for an award-winning, 765-apartment mixed-use precinct across 7 buildings above a waterfront town centre.

Canberra, ACT

The Establishment — Gungahlin, ACT

Gungahlin, ACT | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for a 14-storey, 270-apartment residential tower with retail and dining precinct, in one of Canberra's fastest-growing town centres.

WOVA — Phillip, ACT

Phillip, ACT | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for a four-tower, 800+ apartment mixed-use precinct in the heart of the old Woden Town Centre regeneration.

Aspen Village — Greenway, ACT

Greenway, ACT | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for Tuggeranong's first true mixed-use precinct — 570+ apartments and over 30 commercial tenancies serving 3,000+ residents.

Metropol — Canberra City, ACT

Canberra City, ACT | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for a premium three-building residential complex in Canberra's CBD, including a shared resident's penthouse and rooftop terraces.

The Sullivan — Lyneham, ACT

Lyneham, ACT | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for a 176-apartment, nine-storey residential building along Northbourne Avenue, part of the Northbourne Village precinct.

W2 — Woden, ACT

Phillip, ACT | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for a 24-storey, 222-apartment residential tower in the heart of Woden Town Centre.

Queensland

Marella by Mosaic — Broadbeach, Gold Coast

Broadbeach, QLD | Urmet Australia, 2025–Present

Combined service across CCTV/surveillance, access control and intercom systems for a 30-storey luxury residential tower with hotel-style amenities, overlooking the Gold Coast's Broadbeach coastline.

Lily by Mosaic — Broadbeach, Gold Coast

Broadbeach, QLD | Urmet Australia, 2025–Present

Combined service across CCTV/surveillance, access control and intercom systems for a 98-residence luxury tower opposite Nikiforides Family Park, sister address to Marella with full ocean views.

The Witton — Indooroopilly, Brisbane

Indooroopilly, QLD | Urmet Australia, 2025–Present

Combined service across CCTV/surveillance, access control and intercom systems for a sold-out, 141-apartment boutique development across two buildings with city, river and hinterland views.

The Mowbray — East Brisbane

East Brisbane, QLD | Urmet Australia, 2025–Present

Combined service across CCTV/surveillance, access control and intercom systems for a \$96M, sold-out 82-residence development opposite Mowbray Park and the Brisbane River.

Meriton Suites Southport — Gold Coast

Southport, QLD | Urmet Australia, 2025–Present

Upgraded the CCTV/surveillance system to Network Optix Nx Witness, including the upgrade of over 280 cameras across the 55-storey Sundale Apartments tower — the tallest building in Southport, housing 208 hotel suites above level 25.

WHITE Main Beach — Gold Coast

Main Beach, QLD | Epsilon Security, 2016–2023

Combined service across CCTV/surveillance, access control and intercom systems for a boutique 27-residence, full-floor luxury building between Tedder Avenue and Main Beach.

Lotus Tower — Kangaroo Point, Brisbane

Kangaroo Point, QLD | Urmet Australia, 2025–Present

Service and system upgrades across CCTV/surveillance, access control and intercom systems for a 20-level tower comprising 183 apartments, 5 penthouses and 12 townhomes.
